

“Mosquito Hunter”: Redefining The Frontier of Mosquito Control

**Innovative
Efficient
Eco-Friendly**

**GREEN ENVIRONMENT
SOLUTIONS**

GREEN ENVIRONMENT
SOLUTIONS

Company Profile

Green Environment Solutions Eco-Solutions, Inc. (NASDAQ: Green Environment Solutions), founded in 1999 and listed on NASDAQ in 2017, has advanced significantly in ecological technology. Known for innovative environmental solutions, Green Environment Solutions now extends its expertise to advanced health and ecological products. A pivotal development is the “Mosquito Hunter,” a groundbreaking mosquito control solution utilizing state-of-the-art CO₂ extraction and Internet of Things (IoT) technologies. This product embodies Green Environment Solutions’s technological expertise and dedication to enhancing public health with eco-friendly solutions.

World's First BREATHABLE Mosquito Trap

Efficient and Healthy Mosquito Control Using CO₂ in Air

BW06 | Specifications

Product Model: BW06

Product Weight: 21kg

Rated Voltage: AC(100-240V) 50/60 Hz

24-Hour Power Consumption: <1kWh

Applicable Area: 300-1200m²

Mosquito Collection Box: Removable Built-in
Collection Box

Rated Power: 130w

Product Dimensions: 1187*583*289mm

Packaging Dimensions: 650*630*290mm

BW07 upgrades to use solar energy supply

2 New Materials
Automatically Release
Concentrated CO₂ and
Other Mosquito-Attracting
Gas Molecules(CO₂
30000-40000ppm)

4 Airflow Suction Draws
Mosquitoes into the
Collection Box, Where
They Dehydrate and Die

1 Automatically Inhales Air,
Enriching CO₂ Molecules
from the Air into New
Materials

3 Attracting Mosquitoes to
Gather at the Mosquito
Trap's Inlet

*Through the integration of bionic technology and new material technology,
new materials are developed to simulate human breathing.

*For the first time in the world, using **only natural air** to lure and kill
mosquitoes

*To achieve a healthy, efficient and environmentally friendly revolutionary
mosquito control.

GREEN ENVIRONMENT
SOLUTIONS

Success Stories in Marketing

*Diverse Application Scenarios: Schools, Kindergartens, Hotels, Villas, High-end Communities, Sports Stadiums, Agritourism Sites, Camping Bases, Large Supermarkets, Resorts, Amusement Parks.

GREEN ENVIRONMENT
SOLUTIONS

The First “Mosquito-Free” Park in China

- * Mosquito density dropped from 3.46 caught by per machine per hour to 0.18 per machine per hour in 21 days.
- * The primary mosquito species caught are the Aedes albopictus (Asian tiger mosquito) and the Aedes aegypti.

Other Cases Applied:

Patents and Awards

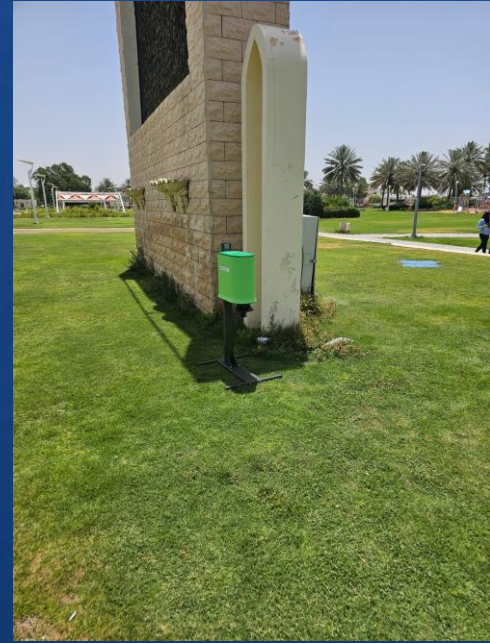

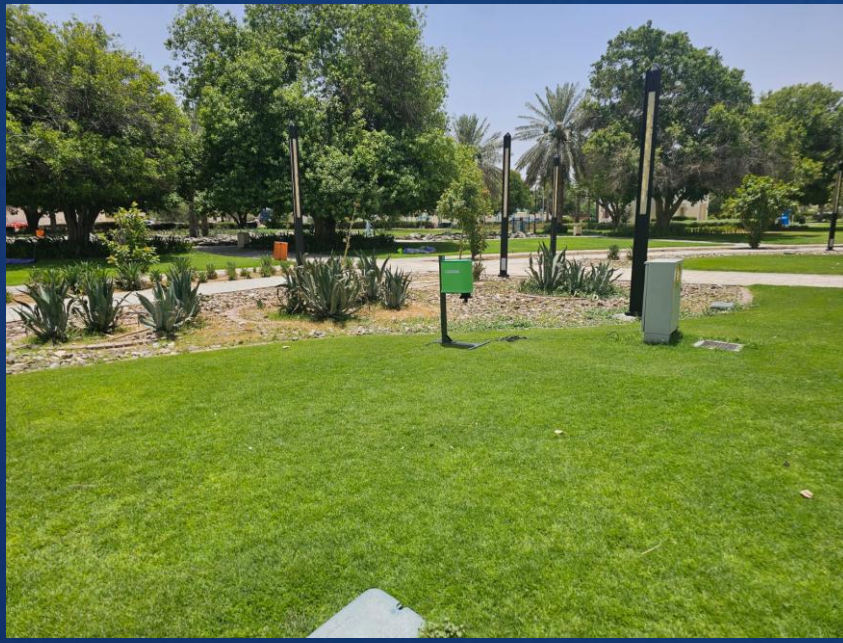

- * Academy of Sciences. It has passed ISO9001:2015 quality management system certification
- * The product passed GB 4706.1-2005 national standard safety test
- * The product is entering the global market: it has obtained the EU CE certification and passed the FCC certification in the United States

GREEN ENVIRONMENT
SOLUTIONS

Proven Performance. Trusted Results. Dubai Park Installation

From concept to deployment, Green Environment Solutions continues to deliver intelligent mosquito control solutions designed to enhance outdoor environments with sustainable, chemical-conscious technology.

**Professional Installation
Completed Project by Green
Environment Solutions
Live Installation at Dubai
Park
Commercial Outdoor
Deployment – Dubai, UAE**
